

## Skateboard Facility Planning Consent

Horsham District Council Planning Committee resolved on 19<sup>th</sup> June 2012 to delegate power to cabinet members and planning officers to issue the planning consent for the skateboard facility in Memorial Playing Field subject to conditions.

The conditions are very much those which reflect the Council's own thinking and when we have confirmation of these decisions in writing we will publish the details. Some of the conditions include preserving the hedge alongside the allotments, getting a detailed design prepared and submitting this for approval, getting a specification of materials being used and setting up a management committee to prepare a management plan for the everyday operation of the facility.

The Council were pleased to note that there was an overwhelming majority of councillors on the planning committee who supported the application to delegate authority to grant the permission. Our next step is to work up a final design and when approved by the council an acoustic report will be commissioned which will determine the acoustic landscaping of the facility.

David Barling  
Chairman Steyning Parish Council
