

### How the parish tax is calculated

|          |          |
|----------|----------|
| Tax Base | 2000     |
| Precept  | £100,000 |
| Band D   | £50      |

### Benefit Claimants in parish

100 CTB claimant households in the parish

Cost of benefit - £5000 (100 x £50)

Future grant – 90% of £5000 = £4500

### New Parish tax calculation

|                           |         |
|---------------------------|---------|
| Tax Base (2000-100)       | 1900    |
| Precept (£100,000-£4,500) | £95,500 |
| Band D                    | £50.26  |

### Issues

Decisions made by the district may mitigate the impact on the Parish

Grant to cover the parish share of council tax benefit will be paid to the district

Actual shortfall in grant may be more than 10%

Council will need to agree to pay over the parish share

Final Tax base and grant payment will not be available until December

### Next Steps

We will attend parish clerk meeting on the 18<sup>th</sup> of September to outline proposals

Parishes will be consulted on proposed CTB reforms in the autumn

Final tax bases and grant will be determined in December
