

SKATEBOARD FACILITY DISPLAY

We were pleased that notwithstanding the terrible snowy weather over the weekend a number of people were able to attend the display of the latest plans for the skateboard facility in Memorial Playing Field.

It is important that everybody sees these and makes up their own mind. Copies can be seen on our website, together with the acoustic report the Parish Council has obtained and draft management plan.

A reporter from the local paper also came and interviewed a number of residents as to their own views.

The latest plans will go forward to a meeting of Horsham District Planning Committee on 19th March at 2.00 pm, which is also open to public attendance.
