### **Problems with Litter and Dog Bins during busy summer period**

There have been a number of incidents recently where dog waste bins and general litter bins have become full and waste has been left by the side of the bins, this is both unsightly and unhygienic. The unusually hot weather has increased the amount of litter created by people and on a number of occasions this is being put into dog waste bins, this causes them to fill up very quickly and we are often finding that a single bag of rubbish has blocked the opening and the bin itself is empty.

It would be a great help if you could ask constituents who complain to you to report any overflowing bins by emailing the location to [hopoast@horsham.gov.uk](mailto:hopoast@horsham.gov.uk) and we will empty them as soon as possible, you can also call 01403 733144 and leave a message out of hours.
