

Wardens Report July /August 2018

Criminal damage
Report received regarding damage in Steyning High Street where hanging baskets were vandalised and several other minor incidents of Criminal damage have occurred over the past month. We have visited the residents and discussed the importance of reporting all incidents of criminal damage, no matter how minor because if they are frequent it will highlight the area to the Police and ourselves as a hotspot. The residents agreed it was easier to report on the Sussex Police website as opposed to calling 101.
Anti-social behaviour
We have had numerous calls and reports of ASB related to a group drinking alcohol in the bus shelter and causing a nuisance in the High Street. We have identified the individuals of the group and issued a warning. If they continue to drink there, under the Public Space Protection Order they will be issued with a fine. We have been in contact with the local residents and visited every shop in the high street relating to the behaviour of this group. We have increased our patrols significantly in the immediate area of an evening. Similar reports have been received regarding the same group drinking on the bench near the alleyway that adjoins the High Street and Steyning Health Centre. Report received regarding group of young adults drinking and leaving litter in the Fletchers Croft area, broken bottles have been left along with drug taking paraphernalia which includes nitrous oxide gas canisters and cannabis bags. We have increased our patrols in the area, moved a group out of the children's playpark and acquired several Vehicle Registration Numbers of suspected drug users for Police intel.
Cold callers
