THE ROUTE

Check out the 100 mile closed road route:

Our stunning 100 mile route is challenging but achievable by everybody, with a total of c. 1,700m of elevation. To comply with road closure timings, riders will be expected to maintain an average speed of 18 kilometres/11 miles per hour. To get you to the finish in good time we will have multiple feed and water stations, mechanical support, dozens of 'Domestique' helpers riding in the pack and cheering crowds across the route. The first riders will depart at 07:00, and all riders must be across the finish line by 18:00. A sweep vehicle system will be in place to collect any riders who fall behind this time limit or otherwise cannot continue due to injury, fatigue, mechanical failure, etc. Riders will be advised of their start time approximately one month before the event.

**Route subject to final revisions.*
