Product information

Top features:

- Spacious double oven is perfect for cooking easily
- Quick and efficient cooking with fan heating
- Grill or fry using the integrated grill
- Programmable and low maintenance

Spacious double oven

Classic in design, the Leisure AL60INK Electric Induction Cooker offers the look of a range cooker with a smaller footprint for those with limited space. Cook for the whole family and entertain in style with two ovens – saving you time so that you can cook multiple dishes at the same time at different temperatures.

Great for larger dishes and roasts, the large main oven features a 75 litre capacity, while the second oven has a 38 litre capacity, making it ideal for shallow trays and smaller dishes.

Quick and efficient cooking

Relax with the knowledge dishes will be cooked quickly and evenly thanks to fan cooking in the main oven cavity. The fan element ensures even heat distribution for excellent results whether placed at the top or bottom of the oven. You'll be able to cook most dishes at a lower temperature in a shorter time.

The second cavity uses conventional cooking, making it perfect for the keen baker. The slower and more natural air movement allows bread and cakes to rise better.

Grill or fry

- On delivery, let's remove and recycle your old appliance for £15.00
- Monthly protection of your HOTPOINT HUI612P Electric Induction Cooker - White for only £6.49

Product information

Enjoy the convenience of induction cooking with the Hotpoint HUI612P Electric Induction Cooker.

Induction hob

The Hotpoint HUI612P features an induction hob which directly heats the pan rather than the cooking surface. Capable of precise heating and capable of bringing water to the boil in seconds, induction hobs offer a fast, safe and accurate way to cook on the hob.

Four zones offer plenty of space for pots and pans while irregular sized cookware can be placed anywhere within the zone for complete coverage. Setting the perfect temperature is easy too thanks to touch controls.

Induction hobs are only compatible with ferrous metal pans, giving you the perfect opportunity to spruce up your kitchenware.

Twin ovens

Two individually operable ovens give you increased options when cooking, and with a combined capacity of 110 litres, offer all the room you need to cook complete family meals with ease.

The main oven is fan assisted for more even heat distribution, faster heat up and more efficient cool down, while the lower oven features conventional heating.

Both ovens feature Cool Touch triple glazed glass windows for safe, usable doors no matter how hot the inside is.

Easy to clean

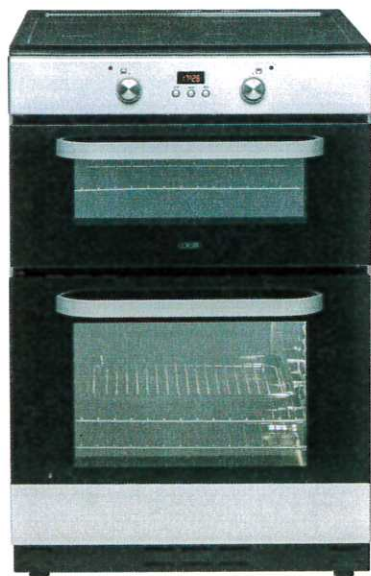

Cleaning an induction hob is simple. As the surface of the hob never gets hot, food and grease never have the opportunity to burn on, letting you simply wipe the surface down when cooking's finished.

- On delivery, let's remove and recycle your old appliance for £15.00

Product information

Top features:

- Versatile cooking with fan & conventional ovens
- Responsive induction hob heats up and cools down quickly
- Convenient features for easy daily use
- Easy cleaning with catalytic liners in the main oven

Versatile cooking

The Logik LDOI60X17 60 cm Electric Induction Cooker offers versatile and spacious cooking with two cavities.

The fan-assisted main oven distributes heat evenly and lets you cook a lower temperature making it ideal for everyday meals, while the second conventional oven is great for baking.

Responsive induction hob

Enjoy responsive control with the four zone induction hob which heats up quickly and leaves little residual heat, so it's safe for the whole family to use.

Slider controls offer precise and immediate controls so you can quickly change the temperature of each zone.

Convenient features

Designed for everyday cooking, the LDOI60X17 has convenient features including an anti-tilt bracket to stop food sliding off the shelf when you pull it out the oven, and metal shelf runners for easily sliding trays in and out of the oven.

- Monthly protection of your BELLING FSE 60 DOTi Electric Induction Cooker - Stainless Steel for only £5.49

Product information

The stainless steel Belling FSE 60 DOTi Freestanding Electric Cooker offers the stainless steel style and efficiency, suitable for any kitchen.

Perfect for family cooking

Featuring a fanned oven as well as a conventional oven and grill, you'll have all the cooking versatility you could need with the Belling FSE 60 DOTi Electric Induction Cooker.

What's really special about the FSE 60 DOTi is the electric induction hob with four heating zones. Reaching temperature at almost twice the speed of ceramic or gas hobs, induction works by a coil beneath the cooking zones producing a magnetic field. When a pan is placed on a cooking zone, energy transfers to the pan, rather than the hob itself, using only the necessary energy. Because only the pans become hot, spillages are easy to wipe clean.

Enamel easy clean

Cleaning is made easy with Belling's easy clean enamel, where a wipe is all it takes to clean smooth surface of each oven.

Belling's FSE 60 DOTi Electric Ceramic Cooker is easy to maintain and utilises the best of induction technology to make mealtimes hassle-free.
