## A COMMUNITY MEMORIAL BENCH FOR STEYNING

*A proposal to SPC Amenities Committee*

Walking in Seaford recently I came across an interesting memorial bench scheme, which I believe could work well in the MPF (perhaps with apples instead of fish, and located in or near the orchard area?).

It struck me as particularly well suited as the field is of course a **Memorial** Playing Field, and this would be a way of allowing people to make a tribute or memorial at a relatively low cost (In Seaford the benches offer fish shaped plaques in several sizes starting at £95 rising to £500). It also provides a community bench and of course raises funds not only to self-fund the project but also towards the MPF and/or orchard?

The Seaford project was completed in three phases, so minimizing the cash outlay pending incoming funds.

It is important to see this is not just a bench, but as a community project with the ability to involve local artists and bring together people of all ages from around Steyning and the surrounding area.

You can find more information about the Seaford project at <http://www.seafordtowncouncil.gov.uk/393bThe-Shoal393b-.aspx>

If the committee like the idea enough to investigate further, I would like to seek some advice from Seaford Town Council and the Shoal designers, and also introduce the idea to other local groups including the Community Partnership and Orchard Group. Perhaps then a working party could be formed to take the project further.
