

WSCC Bridleway Works - starting Monday 30th July

At very short notice, West Sussex County Council have organised some fairly major work to the Bridleway by the mountain bike area on the Steyning Rifle Range. It's due to start on Monday (30th) and will run for approx. 3 weeks, although I'm still waiting for a definite confirmation on the start date.

The works involve 20 tonne lorries moving through Mouse Lane and up and down Nightingale Lane, through the Big Picnic Field and into the Rifle Range, then smaller tippers carrying material up to the top corner gate. This will obviously affect access for walkers along that route for this period.
