

Fletchers Croft Playground open once more

The playground at Fletchers Croft has undergone major renovations during February 2019.

The new facilities have been provided thanks to the use of Council reserves and from successful grant funding applications. The new facilities have been installed after a rigorous year-long consultation process and via a working party which included Members of the Parish Council, District Council and County Council as well as members of the community with the much-reworked plans being agreed from an original field of six different playground manufacturers.

The process included a day-long public consultation at the Steyning centre when all the original plans were shown and questionnaires asking for feedback and preferred choices were requested. Indeed, users of the new facility will notice the greater seating/picnicking capacity of the new facility and this was an improvement which arose as a direct result of the feedback received during this consultation.

The official opening will take place on the 26th March at 3.30pm.

We hope you enjoy this facility
