

Help your local community groups to benefit from our new Horsham District Community Lottery

In September 2019 Horsham District Council will be launching an exciting new weekly online community lottery for the Horsham District. We are helping promote this new lottery to all the hard working charities, voluntary and community groups across the District.

By inviting local community groups to get involved they will be helping to raise valuable additional funds to support their work and benefit residents in Horsham District.

Lottery ticket buyers can choose the community group they want their money to go to and the group then receives 50% of every £1 ticket sale.

If you are able to promote this information on your parish website / community notice boards, or have contacts with your local community groups please do encourage them to find out more about this and get involved.

There is also an **information event on Wednesday 17 July at 6pm** that community groups can attend to find out more.

Details are available in the attached media release or via this online link;
