Hi Sally and Michael,

Thank you for your excellent detailed design specs, that makes my work a lot easier.

Yes i have somewhat underestimated the cost as i didn't appreciate the finish you are looking for but understand now.

I also think the single door is a better design with the points you have made.

The total cost of the noticeboard will be £540.

The cost of the support posts would be £250.

I have attached some pics of previous works i hope that you are happy with what you see?
