

Request

- 1 All SWAB Steering Committee agendas and minutes and draft minutes produced since the meeting on 20th April 2016
- 2 The current version of the project plan
- 3 The first version of the project plan together with any interim versions

Response 22 August 2016

I understand the minutes of meetings since April will be considered at the next meeting and once agreed will then be published.

I have been unable to locate a project plan but have been advised that project steps and timings are periodically reported to the Parish Council and in public newsletters in this living project.
