

Request

I believe that if he has not already done so, of the ICO will soon speak to you to confirm that under the ICO Publication Scheme adopted by SPC it is necessary to publish the supporting documents and reports when the agenda is published.

Set out below is the text of an email I sent to on the same subject nearly a year ago. Previous requests have also been ignored by SPC. The sentiments in that message continue to apply except that the early optimism for changes in SPC's secrecy and attitude to the public soon evaporated. Hopefully we are now going to see this happen.

In the meantime, there were a number of important documents referred to at the annual meeting, the citizens' recording of which I have listened to. It would make all the difference if I and other members of the public who listen to these recordings could also refer to the supporting documents.

Accordingly please take this as an FoI request for copies of all documents referred to at the meeting and also at the previous planning meeting (except for documents already in the public domain such as the planning documents which are on HDC's website), unless properly confidential to the meeting. If a document is only partly confidential then it should be redacted rather than refused, please.
