

DMMO - addition of a FP linking FP 2713 to FP2704/1 Mouse Lane (CC803.15659)

Seven additional Evidence forms were sent off to Charlotte Nash (Legal Assistant Environment, WSCC) on 20.05.2020. which totalled 13 in all, before the deadline of 28.05.2020 when the application for this is to be considered.

Mike Charman, the Area Footpath Officer for the Ramblers Association had contacted SPC office after visiting the footpath and has supported the Application and is happy to be contacted for future issues. I had a very helpful conversation with him on 20.05.2020.

Rifle Range inter-connected paths

The application for this was returned from WSCC as it was considered there were too many paths being submitted and they should be divided into three different sections and resubmitted. The Amenities committee previously agreed to send the application as it stood to the Open Spaces Society for their opinion.

This was scanned in and sent to them on Thursday May 21st and I await their reply, hopefully in time for the Amenities meeting.
