

Abbey Road - Briefing note

Members of the public, key individual together with Deborah and Myself meet on site earlier this month to make a recommendation as to where we should plant the disease resistant Elm tree that we have been kindly given. The map below marked with a red X is the chosen positioning of this.

We also have the first meeting of the Abbey Road Conservation volunteers taking place shortly and the plan will be to sow yellow rattle ready for next year.

The plan for the area is underway and once ready will be presented to all involved for comment
