Item 8.4.2

Regards location of Bins on the MPF

-----Original Message-----

From: jane sayer

As a regular user of this area, I would be grateful if you could return the rubbish bins to their original positions. Since they were moved during lockdown the rubbish has got a lot worse because people cannot be bothered to walk to find a bin. For instance, why have two up by the entrance to the gravel path and yet none by the benches. It makes no sense.

Also the new dog waste bin is hopeless. You cannot get your hand into dispose of the waste and the bin is just full of bluebottles. The old one never had this problem. It will put people off using them which is not good for the community.

Please could you also reinstate the rubbish bin off College Hill since that disappeared during lockdown the dog mess and rubbish on the pavement has increased.

Thanks for listening.
