

Trade Waste Bin - emptying costs

Item 8.4

Briefing note

Hazel completed a check on service costs for waste bin emptying, going first to a price comparison site to narrow down the choice of operators.

The best price by way of a direct comparison is that of a company called Cheaperwaste.co.uk

See table of comparison below

HDC- Existing service per weekly collection of 5 Bins – prices noted are per bin empty

1100 litre general waste bin	660 litre recycling bin	Duty of care waste transfer cost
£16.00 (No VAT)	£9.95 (No VAT)	Annual fee - Nil

Cheaper waste – 5 bins to be collected – prices noted are per bin empty

1100 litre general waste bin	660 litre recycling bin	Duty of care waste transfer cost
£13.50 (£16.20 inc. VAT)	£8.59 (£10.30 inc. VAT)	Annual fee - £96 + VAT

Total savings might be £9.44 per week however HDC offer a lot of flexibility in terms of preferred pickup times and bin access arrangements which is important when considering accessibility at the MPF car park or considering the use of the Steyning centre adjacent bin compound for nursery play. Other considerations are that in keeping with HDC we are supporting our local council service. The terms of payment are easy and the service itself has over many years been reliable, trustworthy and most importantly accountable.
