

St Andrews Pre-school playgroup Lean-to project

Briefing Note

As you will see from the accompanying supporting papers there is a project proposed to install a 4meter x 4 meter cover adjacent and attached – via temporary fixtures to the Steyning Centre outside the Saxon room and in the existing playgroup garden.

The funding of £5,000 has been secured already provided we support the project.

I suggest we need to able to give support or otherwise at this stage so that we can gain more precise representation of how it will look with the preferred option from the contractor of choice.

I suggest when we know what it will look like we will be in a better position to agree the entire project or not
