

Item 6.2.2

MPF Memorial Garden Signposting

- The working party feels the signposting as already designated is preferable.
- One post at entrance of the High St car park where there is a map which also shows the position of the garden; and one opposite the twitten on the corner of High St and Tanyard Lane with a further post at the other end of the twitten in Charlton St.
- This was agreed with the representatives of the British Legion who have maintained the garden.
- The exact position of the memorial garden could be further enhanced at the two main entrances to the MPF (i.e. past the police station and adjacent to the cricket club building and adjacent to the tennis courts opposite SME building) with a map showing the specific areas of the MPF to be enjoyed e.g. the basket ball court, play area, community orchard and placement of various seating.
- In addition, information at the High St car park entrance could include more detail of the easy/level access route to the memorial garden i.e. via Charlton St. An updated map here could also indicate this.
- The Post Office in the High St is also the “tourist information” point and the position of the memorial garden together with the level access entrance could also be made available here on the information screen.
- It was not thought that more finger posts would be helpful although this could be an option.
