

Briefing Note

Item 6.6

Pictured below is one of two small trees blown down by the Winter storms

For your information

This one is on the Hedgerow between the MPF and the Rublees Allotments

The main part was removed two weeks back – and there is still some work to be completed by the contractor as and when he can.

I suggest the gap left in the hedge becomes a topic of conversation for the Hedgerow working party when it meets later this year.

The other tree blown over was at Abbey Road (as per previously reported) and was dealt with soon after it was discovered by a contractor
