

Briefing Note – 6.8 – Digital Screen at Fletchers Croft

Please see the proposal to remove the screens below – we did point out that the screens may have been boarded up but to our knowledge never actually repaired, but we have not had a response to this as yet.

We need to agree our support to remove or to maintain the facility please
There was a discussion about making the content more local – perhaps Tim can fill in the gaps

Hi John and Hazel

As you probably know, the digital tourist information screen in Fletchers Croft car park is consistently being vandalised and is therefore rarely working. The cost of consistently repairing the screen is now prohibitive and HDC would like to propose permanent removal of this unit from the car park. I wonder if the PC would have any objections to the screen's removal?

We could consider a more traditional welcome sign for visitors in that location if you think this would work better, and we can start discussions on that if you want.

Please let myself and Nigel have your thoughts?

Thanks
Lynda
