

SPC Memorial Gardens hedge cutting arrangements

Briefing Note -

This is an arrangement for the hedge in between the MPF Memorial Garden and the Bowls club to be trimmed each year. Historically (Last 20 odd years) RBS had overseen for a contractor to complete this task, and this was paid for by a kind benefactor.

Last Community Meeting we were tasked with ensuring we could either keep the current Memorial Garden hedge cutting arrangement in place or finding another option for committee to consider. Through discussions we have found that those previously responsible for the task continue to be happy to complete the works. The cost of these annual works has been quoted by them as £360 for a day's work for two people with all cuttings to be removed from site. I recommend we agree this cost please, and that the office asks the contractors to proceed.
