

Dear Parish Councillors,

We are writing to update you on our ash dieback programme of works.

We will shortly be starting our Ash dieback works which are based on the surveys we carried out this summer, the programme of these works are as follows

A283 – Shoreham to Washington

Works are scheduled to begin on 7th November and further works are proposed to take place towards the end of November and into December 2022, dependent on road space availability

These works will involve the removal of ash trees on both sides of the carriageway.

Please feel free to share this information accordingly.

Sharon Jones
WSCC Ash Dieback Project Support Officer
