

Steyping N. Plan Steering Committee Working Party

Agenda

For meeting dated 26th November @ the Steyping Centre

Introduction

Richard and I have agreed it best that this meeting be a working party rather than a public event – as no decisions are required other than to agree final comments on the Reserved matters planning application – which we will have delegated authority to do anyway. – And we need to speak freely and concentrate on the matters in hand.

This then becomes our **main focus for this meeting**, and you will note the four main supporting papers for it are attached.

1. The Updated Design and Access Statement from Vistry
2. Cover Letter
3. Comparison Doc, and
4. The amended minutes from the recent meeting with Vistry attended by Russell, Joanna , Victoria and myself which reviewed progress on our last set of previously agreed comments which were subsequently submitted by SPC – This will become our guide when mapping out any further (and final) reserved matters comments

These can also be found on SharePoint with some other docs from the HDC portal using this link if you prefer. [\[REDACTED\]](#)

Second, we will be able to review the design code pictures on SharePoint to decide what goes off to the N.Plan design code consultants.

And third we will briefly discuss the recent Steyping School presentation/ (soon to be development), and decide who could go to the next meeting/s – (dates noted below from the Headteachers PA) so that the plan can be discussed before a planning application is submitted by the already appointed contractors - *BAM*. (likely soon after Christmas).

Proposed dates as follows

1. 11.45am - 12.45pm - Monday 1st December
2. 4.30pm-5.30pm - Tuesday 2nd December
3. 10.00am-11.00am - Wednesday 10th December
