

Request for speed reduction measures from a resident of Laines Road

Good afternoon,

I write to ask if something could please be put in place to slow up the speed of cars, Ebikes and bicycles travelling down Newham Lane, particularly between the White House Campsite and Laines Road.

My husband and I live [REDACTED] on the corner of Laines Road and Newham Lane, and we are very aware of the ridiculous speed some vehicles and bicycles are travelling down Newham Lane. Very soon there will be a bad accident involving a vehicle emerging from Laines Road.

Could I suggest maybe some 'Sleeping Policemen' prior to the junction - which would hopefully reduce the speed of vehicles significantly? There is a '30' sign at present but it is positioned too near the Newham Lane/Laines Road junction and drivers do not take any notice of it or even attempt to slow down.

I look forward to your comments please.
